

MC-A8

Compact & Powerful

- ◇ Up to 8 t/h throughput
- ◇ Highest energy efficiency
- ◇ Compact design, little floor space
- ◇ Homogenous ground product, low powder fraction
- ◇ Gentle processing, minimal heat development

CONFIGURATION

Manual, stepless adjustment of the grinding gap
Foreign object protection by spring technique
EC-conform
Disk profile of your choice
Motorized gap adjustment, subframe and further optional extras available upon request

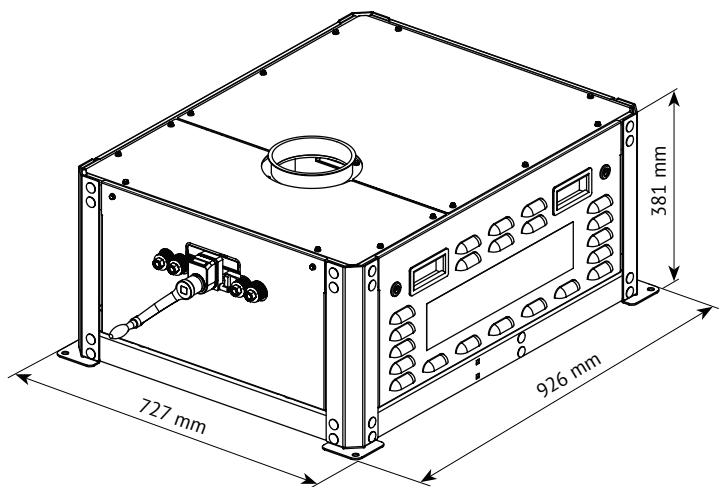

IDEAL AREAS OF APPLICATION

Grains
Legumes
Seeds
Extraction meal/cake
Herbs/tea

...and much more

TECHNICAL DATA/SPECIFICATIONS

Inlet/Outlet: DN150
Outer dimensions: (see drawing)
Drive power: 1x 7,5 kW (optional 1x 11 kW)
Weight: 190 kg

MAKOPA – Your Partner for Advanced Grinding Technology

Who we are

MAKOPA is an innovative, owner-managed mechanical engineering company based in Rastatt, South-West-Germany. We specialise in the development, production and worldwide distribution of machines for the food, animal feed and chemical industries.

The company is built upon a committed and customer-orientated team. Always with fast response times in solving your customised requirements. Competent service and support are a matter of course for us.

The core of our product range is the innovative MULTICRACKER® grinding technology, with the patented design of the special grinding unit. Our MULTICRACKER® machines offer a reliable and resource-saving solution for grinding bulk materials in various applications in the animal feed, food and chemical industries as well as for similar applications since many years. The product and service programme built around these machines is constantly being further developed and expanded.

Your advantage

With our innovative MULTICRACKER® machines, you achieve a homogeneous grinding result with minimum energy input. The grinding of feed and similar applications e.g. for laying hens is one of the specialties of our machines.

Get in touch with us!

We cordially invite you to learn more about the MULTICRACKER® machines. Please contact us online or simply give us a call. You are welcome to carry out grinding trials at our premises or hire a machine for a self-test. If we have sparked your interest in our machines, our team would be delighted to hear from you at any time.
