

MC370

The Bestseller

- ◊ Up to 30t/h throughput
- ◊ Highest energy efficiency
- ◊ Compact design, little floor space
- ◊ Homogenous ground product, low powder fraction
- ◊ Gentle processing, minimal heat development

CONFIGURATION

- Electrical stepless adjustment of the grinding gap
- Controls/switch cabinet not included
- Quick change of cracker unit
- Foreign object protection by spring technique
- Disk profile of your choice
- Vibration damping mounting feed, bearing temp. sensors
- EC-conform, ATEX certified (zone 22)
- Subframe and further optional extras available upon request

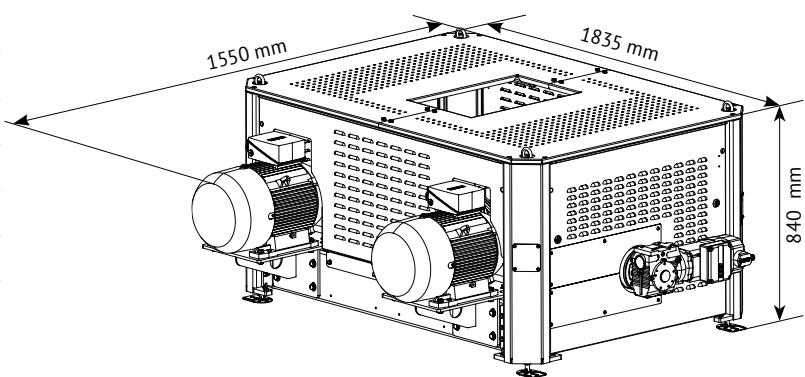

IDEAL AREAS OF APPLICATION

- Grains
- Legumes/nuts
- Seeds
- Oil-extraction meal/cake
- Herbs/Teas
- Pharmaceuticals
- Chemicals

...and much more

TECHNICAL DATA/SPECIFICATIONS

- Input chute: 462 x 242 mm
- Output chute: 462 x 150 mm
- Outer dimensions: (see drawing)
- Driving power: 2x 18,5 kW
- Weight: 1300 kg

MAKOBA – Your Partner for Advanced Grinding Technology

Who we are

MAKOBA is an innovative, owner-managed mechanical engineering company based in Rastatt, South-West-Germany. We specialise in the development, production and worldwide distribution of machines for the food, animal feed and chemical industries.

The company is built upon a committed and customer-orientated team. Always with fast response times in solving your customised requirements. Competent service and support are a matter of course for us.

The core of our product range is the innovative MULTICRACKER® grinding technology, with the patented design of the special grinding unit. Our MULTICRACKER® machines offer a reliable and resource-saving solution for grinding bulk materials in various applications in the animal feed, food and chemical industries as well as for similar applications since many years. The product and service programme built around these machines is constantly being further developed and expanded.

Your advantage

With our innovative MULTICRACKER® machines, you achieve a homogeneous grinding result with minimum energy input. The grinding of feed and similar applications e.g. for laying hens is one of the specialties of our machines.

Get in touch with us!

We cordially invite you to learn more about the MULTICRACKER® machines. Please contact us online or simply give us a call. You are welcome to carry out grinding trials at our premises or hire a machine for a self-test. If we have sparked your interest in our machines, our team would be delighted to hear from you at any time.
